## EXPERIENCE

### Knfrmd Web Corp , Canada
**Frontend Developer**
June 2022 - Present

A web engineering consulting company that has been in operation since 2021. We evolved from Konfirmed Creative Studio and have a team of highly skilled Software Engineers, Web Developers, SEO specialists, Graphic Designers, and Project Managers working together to improve user experience across the web.

**Accomplishments**:
- Developed and maintained enterprise-level software applications, following industry-standard coding practices and employing high-quality normalization techniques with react.js and next.js
- Conducted thorough code reviews, identifying and addressing potential issues to maintain code quality and adherence to best practices.
- Identified areas for codebase improvement and conducted refactoring initiatives to enhance code reusability, maintainability, and overall system performance.
- Leveraged Libraries and Frameworks like Jquery, redux, bootstrap, module css, tailwind, react.js, nextjs and gatsbyjs in the development of several projects, including Knfrmd.com, Nigerians.ca, naijanoona.com and metanoiahr.com, also ensuring an engaging user experience and seamless navigation.

### Techstudio Academy, Nigeria
**Frontend Developer Intern**
Oct 2021 - May 2022

Techstudio Academy is a tech educational center that give their students an all round experience by providing extra value to ensure you excel in their chosen tech courses

**Accomplishments**:
- Worked with clients to develop the overall look and design of techstudioacademy.com
- Writing website code with programming languages such as HTML5 and Javascript
- Routinely testing websites for ease of use and fixing bugs that arise.

# PERSONAL PROJECTS

**Quinnnaira Store**:
Quinnnaira store serves as a digital platform for buying and selling products or services. It provides users with a seamless shopping experience, allowing them to browse a wide range of items with ease. The platform is designed to simplify the buying process, from product selection to secure checkout. Customers can enjoy the convenience of shopping anytime.

**Portfolio:**
My portfolio website functions as a platform where people can display my projects, information about me, and demonstrate my proficiency with modern web development technologies and tools. It allows potential employers or clients to explore my work and learn more about my capabilities in a visually appealing and user-friendly manner.

**Weather App:**
The Weather App was built to provide live forecasts that keep you updated on changing conditions in real time. It delivers daily updates predictions tailored to any location you choose. Whether it's sunshine, heavy rain, or a storm, the app ensures you're always prepared with accurate information. Users can easily track temperature, wind speed, humidity, and other key weather details with clarity.

**Admin Dashboard**:
The admin dashboard app simplifies business management with an intuitive, all-in-one platform. It offers real-time data visualization through interactive charts and reports for quick insights. Users can customize layouts, widgets, and notifications to fit their needs. Built-in security and role-based access ensure safe and controlled usage.

**To do list app:**
Todo-list app allows users to create, manage, and organize their daily tasks with ease. It helps users stay productive by letting them add new tasks and track their progress. Each task can be marked as completed, edited when priorities change, or deleted if no longer needed. The app is designed to provide a clean and intuitive interface for stress-free task management.

**Calculator App:**
Calculator app allows users to input numeric values and perform calculations with a variety of basic operations. It provides a clean and simple interface, making it easy for anyone to quickly solve arithmetic problems. The app also includes essential features such as clearing the input, editing numbers, and displaying accurate results. Users can work with both whole numbers and decimal values.

# EDUCATION

**Techstudio Academy**
Software development                                                                                  (Feb  - Sept 2021)

**Ambrose Alli University**
Human physiology                                                                                      ( 2015 - 2019 )
